

Re: Failure to Submit a Disinfectant Level Quarterly Operating Report (DLQOR) Monitoring, Routine (DBP), Major/Chlorine

The **PARKER COUNTY SUD GROUND WATER system PWS ID 1840025** has violated the monitoring/reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before disinfectant residual at various locations throughout the distribution system **and report the results of that monitoring to the TCEQ on a quarterly basis.**

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination. This violation occurred in the monitoring period for the 4th Quarter (October/November/December) 2022.

We are taking the following actions to address this issue: Since the District shows that both forms for the Surface and Ground Water were sent to TCEQ, the District needed a Certified Mailing Receipt to prove it was mailed to have the violation removed. **In the future, the District will mail each report separately and send by certified mail.**

If you have any questions regarding this matter, you may contact Dakota Tawater, General Manager at 817-594-2900. You may review this letter and copies of the reports at parkercountywater.com.

Sincerely,

Dakota Tawater, General Manager
