Mandatory Stage I Water Conservation

Re: Rescind of Stage II Water Rationing (no outside watering) to Stage I Water Rationing (may use irrigation) Once per Week According to Your Physical Address

Effective: September 16, 2022

Parker County Special Utility District would like to **thank you** for helping us get past the summer heat and major drought!! With the rain we have received and the temperatures beginning to cool down, the Board of Directors voted to rescind Stage II Water Conservation and enter Stage I Water Conservation.

The District is still progressing along in the construction of expanding the treatment plant. Water conservation is key to staying into Stage I and not proceeding back to Stage II. In the upcoming months, to facilitate the plant upgrades, the plant will need to be shut down from time to time.

The water conservation measures to be implemented are as follows:

- Initiate **mandatory** conservation measures, where possible.
- All “**non-essential water use**” shall be **PROHIBITED** between the hours of **10 a.m. and 6 p.m.** “Non-essential water use” is defined as washing windows, siding, eaves, and roofs of buildings; washing driveways, streets, curbs and gutters; vehicle washing; **unattended irrigation or sprinkler lawn watering of landscaping, shrubs and grass; draining and filling swimming pools;** and flushing water systems. Handheld hose watering of landscaping, shrubs and grass is permissible subject to the “**time-of-day**” restrictions established herein.
- Unattended irrigation or sprinkler lawn watering is permitted only **ONCE** a week on your **designated day** and is **NOT** allowed between the hours of **10 a.m. and 6 p.m.** according to the last digit of your physical address.

0 and 1: Monday

2 and 3: Tuesday

4 and 5: Wednesday

6 and 7: Thursday

8 and 9: Friday

No outside watering on Saturday or Sunday OR between the hours of 10 a.m. and 6 p.m.

Stage I Outside Residential Water Use **Enforcement Policy:**

1st Violation - The member will be notified by a written notice of their specific violation. Excessive water users could face a rate increase.

2nd Violation - Installation of a flow restricting device in the customer’s service line to limit the amount of water through the meter in a 24-hour period.

Subsequent Violations - The District may terminate service for up to 7 days and charge for the service call to restore service.

Visit our website at parkercountywater.com for information on conserving water.

Your cooperation in this effort is greatly appreciated!
